The information provided in this manual does not take precedence over OH&S or any other relevant legislation. All workers should be familiar with the legislation applying to them in their workplace. This document provides guidance only and does not constitute legal advice. It is intended to be helpful and to provide practical solutions to safety problems on the job. It is not a complete presentation of all safety problems and solutions. Other additional safety measures will be required to meet specific workplace circumstances.

For further information consult The Saskatchewan Employment Act and related regulations or Saskatchewan Labour Relations & Workplace Safety, Occupational Health and Safety Division.
